AP Code - Champs Competition – 2020

With an aim of inculcating coding habits among budding engineers and to introduce them to the challenges they need to face to get into higher end IT jobs, AP TPOs Consortium conducted a contest named 'AP Code-Champs Competition in 2019.

After getting the huge participation from the students of various engineering colleges and applause from the industry partners, AP TPO Consortium is back with Season 2 of the competition for the engineering students studying in the various colleges of state of Andhra Pradesh.

The Consortium would like to thank management and technical team of Edyst for accepting to extend technical support for the **AP Code Champs - Competition-2020**.

The targeted stratum of students is pre-final year UG students preferably from CSE, IT and ECE. However, participation from any branch of engineering is welcome.

The registration link will be circulated by Vice Presidents and Joint Secretaries of corresponding region to TPOs of all engineering colleges in their region. The registration process will start on **15th June** and Ends on **20th June 2020**. There is no restriction on no of registrations from a college. Any student with a zeal to participate can register for the competition. The registration dash board will be shared to TPOs for their reference. The final registration list will be sent to all by **21st June 2020**.

Important Dates and Timing

AP TPO Consortium will circulate the link to TPOs on the day of competition. AP TPO consortium core committee follow up with all the college TPOs for ensuring maximum participation.

In the first-round top 20% out of the students participated and top 3 students from each college will be selected and promoted to the 2nd round. In the second-round top 10% will be selected and promoted to final round and in the final round top 3 students will be awarded with prizes. Each round the selected list will be circulated to the TPOS. They may communicate the same to all the participants in their respective colleges.

Round	Date	Link will be shared by	Link access time	Duration of test	Declaration of result
